

# Georgi Lukanov

Junior Python Developer

*I'm currently seeking my first opportunity as a Junior Developer in the IT world, driven by a strong passion for continuous learning and skill development. I approach challenges with a blend of logical thinking and creative problem-solving. I thrive on finding innovative solutions to complex problems and am excited to contribute my enthusiasm and expertise to the tech industry.* Free time: Diving, motorcycling, traveling, reading.

Azure

## PROJECTS

Portfolio page

– [Link to Portfolio](#)

Spearfishing4Life (06/2023 – Present)

– "Spearfishing4Life" is a personal project that I developed from scratch. Using Django–Framework and pure HTML, CSS and JS. The app contains APIs (maps and weather) and a lot of unit tests.

– [Link to the App](#)

– [Link to Github source code](#)

MotoMania–React (11/2023 – Present)

– Selling platform. (SPA) using React and Node.js server for BE.

– Vite, HTML, CSS, Toastify, APIs.

– [Link to the App](#)

– [Link to Github source code](#)

Car Data Analyzer

– Extract data from json file and make analysis using pandas and OOP. Saving the final result to csv file.

– [Link to Github source code](#)

Connecting–Four Game

– Simple colored console python game.

– [Link to Github source code](#)

Wizard–Game

– Game created using HTML, CSS, JS, DOM.

– [Link to Github source code](#)

Tic–tac–toe Game

– Console game using python.

– [Link to Github source code](#)
